Locals And Personals

Entries for the Oyen Agricultural Fair absolutely close at 10 a.m., Saturday, August 2, 1919.

Mr. Robertson, inspector of the Bank of Toronto, is here this week making an inspection of the bank.

Oyen and district was visited with a nice shower last Friday evening. It was reported that quite a heavy hail storm swept over the Cappon district the same evening doing considerable damage.

Miss Elizabeth and Mable Rutherford of Govan and Miss Grace McNee of Cynric Skak, are visiting at the home of Mr. and Mrs. F. McNee of Springburn.

The first flat of the residence of Chas. L. Dalton next door to the Agricultural Hall will be used as a Rest Room for the ladies visiting the Oyen Fair Aug. 4-5.

R. C. Merithew of Lethbridge Inspector for the Holland-Canada Mortgage Co., was in town last week making inspections for the Company.

Miss Dobson, teacher of the Superior School, has resigned her position on account of ill health.

J. Howard Alexander, who is on the Executive of the Alberta Land Settlement Association, informs us that he is receiving over twenty enquiries about about land in this district.

As a result of the wind storm on Friday last, Geo. Thomas, a farmer living 16 miles south of Oyen, had his new barn blown over and broken into fragments. The barn was 28x40 feet and was under construction.

Thos. Hicks, of Acadia Valley, has purchased the Shield's Livery Barn at Oyen from S. S. Hedden. Mr. Hicks will run a dray business in connection and it is his intention to give the public the best of service at a reasonable price.

S. Downey, pool room inspector, passed through Oyen on Sunday last.

Mr. and Mrs. E. P. Barbour, who have been spending a short holiday in Saskatoon, returned last Thursday.

Mr. and Mrs. W. V. Miller returned last Thursday from Calgary and Banff, where they have been on a vacation.

Dr. H. W. Marsden, of Excel, who has just graduated from the Veterinary College, Toronto, will practice in Westlock, Alta.

Mr. and Mrs. C. Riel, who have been on an extended trip to Montreal, Chicago and New York, returned home last week.

The regular meeting of the Oyen G. W. V. A. will be held in the Masonic hall on Saturday evening, August 2nd. All veterans are cordially invited to attend. As this is a special meeting for the election of officers there will be a smoker in connection and it is hoped that a large crowd will turn out.

Mr. and Mrs. C. A. Gilders and Mr. and Mrs. Jim Poonie returned on Saturday from a five hundred mile motor trip through Saskatchewan and Alberta.

Born—To Mr. and Mrs. F. Braeman of Oyen on Monday July 28th, a son.

LAST CALL FOR THE OYEN AGRICULTURAL FAIR ON MON. AND TUES. AUG. 4-5

All Preparations Ready for the Big Day

This will be the last call for the Oyen Fair, which will be held on Monday and Tuesday of next week. According to reports from the various committees, entries are pouring in for all departments. There are an exceptionally large number of entries in the classes for horses and stock, which go to show how the district has developed in the rearing of nothing but the best pure-bred stock. Special judges from the Department of Agriculture, Edmonton, will be here on that day to judge horses and stock.

Grand Baseball Tournament and Sports

Apart from the \$2,500.00 given in prizes for live stock, farm and dairy produce, there will be a grand baseball tournament, commencing on the first day of the fair; first prize, \$175.00; second prize, \$75.00. Final game to be played at 6.15 p.m. on the second day of the fair. Among the many other interesting events will be the horse races: Oyen running race, half mile heats, first prize, \$30.00; second, \$20.00. Pony running race, half mile heats, first, \$25.00; second, \$15.00; third, \$10.00. Novelty saddle race; first prize, \$25.00. Also the following athletic events: 100-yard dash for men; 1st prize, \$5.00; second, \$3.00. Standing broad jump, first prize, \$4.00; second, \$2.00. Running hop, step and jump, first, \$3.00; second, \$2.00. A good program of children's races.

Remember, all entries must be in before Saturday, August 2, at 10 p.m.

The Reason Why

The reason why the Bank of Toronto and the Peterson Motor Company's advertisements do not appear in the Oyen Agricultural Prize List this year is that the copies were unfortunately mislaid by the printer, and it was never noticed until the lists were printed.

Oyen Postmaster Resigns.

Mr. W. R. Meacham, who has been postmaster in Oyen since the railroad came in and the townsite was opened up has resigned his position as postmaster and Mr. Chas. Stewart, a well known returned soldier of this district has been appointed temporary postmaster.

Harvesting in the Oyen district will be general about the middle of next week. According to reports it is expected that there will be more grain harvested this year than there was last year.

Rest Room at Oyen

The ladies living in the Oyen district will be pleased to learn that Oyen has at last got accommodation for lady visitors to the town. At a recent meeting of the Oyen Board of Trade a committee was appointed to secure rooms where the ladies coming in from the country could go and rest. This committee has rented rooms next door to Messrs. Kerr and Tuel's office on Main Street which will be furnished and ready to be used on Friday.

Are You Prepared for Oyen's Summer Fair Aug. 4 and 5 ?

Try for this Special

1st Prize One 98 lb. sack of Robin Hood Flour
2nd Prize One 49 lb. sack of Robin Hood Flour

For the Best Loaf of Bread baked by non-professional from Robin Hood flour. Dealer's sale slips showing purchase of not less than 1 49 of Robin Hood Flour within two weeks of date of contest must accompany each exhibit.

And this Special

For the most gopher tails shown by any individual the following prizes will be given:

First prize \$10 in gold, 2nd 22 Kifle, 3rd \$5.00 in cash.
Exhibitors having 500 gopher tails or more not winning any of the above prizes will receive a prize of \$2.00

We will be pleased to have you attend our Fair, and cordially invite you to make our Store your headquarters.

Are You Hot ?

Come and keep cool in The Oyen Billiard Hall

The coolest place in town. Beer on draught and in bottles, and all kinds Ciders and fancy drinks on ice.

We highly recommend our Ciders for family use, better than well water, buy it by the gallon.

All kinds Pipes, Tobaccos, Cigars and Cigarettes
Quality and Service of the Best.

Hutcheon & Johnston

The Oyen Billiard Hall

Dinner Leader's Speech Is Severely Criticized

London.—Sir Edward Carson's speech has brought the Union leader under the lash of the newspapers of all parties, primarily on account of his references to the United States, which are criticized as tactless and calculated to breed bad blood between the two nations, and, secondly, because he reiterated his old threat to call out the Union volunteers to resist any attempt to place the Home Rule Act in operation.

The Attorney-General, Sir Gordon Hewart, announced in the House of Commons that there were no grounds for setting the law in motion against Sir Edward because of his threat to call out the Union volunteers against Home Rule.

By a vote of 217 to 73, the House rejected a motion by J. R. Clynes, Labor member, urging the government to prosecute Sir Edward Carson for his speech as incitement to violence and breach of the law.

The debate turned on the legal point, in which, the Attorney-General said, he had the concurrence of the Solicitor-General. But almost all the speakers without distinction of party condemned the Carson speech. Sir Donald Maclean, Liberal, appealed to the government to try to regain the moral authority of parliament by condemning the language the Irish Unionist leader used.

Andrew Bonar Law, the government spokesman, contended that the government was bound to be guided by its legal advisers, that nothing could be more painful to him. If the government had been advised that the law was broken, Carson would have resisted an action being taken or would have resigned. The whole thing was a very unfortunate affair, said Mr. Bonar Law.

The Labor organizations are not slow to point out how such incitement to "direct action" has been improved upon in the industrial field for securing political ends. The Liberal pro-Irish papers are really quick to point out that the point of fact is there is no difference between "King De Valera" and "King Carson."

Labor Conference

Called At Ottawa

Premiers of Provinces, Labor Leaders and Employers to Be Invited

Ottawa.—It was decided at a meeting of the privy council to call a national industrial conference for September 11. To this meeting all provincial premiers or accredited representatives will come to talk over with representatives or organizations of employers and employees. The legislation would best help bring about an era of co-operation and concord in Canadian industry. Great efforts will be put forth to bring about hearty cooperation in this conference of all elements of labor and all organizations of employers.

Set Price Of U. S. Wheat

Wheat and Wheat Flour Imports and Exports Put Under Prescribed Limitations

Washington.—President Wilson has signed an executive order increasing the guaranteed price of the 1919 wheat crop to \$2.30 per bushel at Galveston and New Orleans.

At the same time a presidential proclamation was issued declaring that in order "to protect the United States against undue enhancement of its liability" under the law guaranteeing wheat prices, no wheat or wheat flour should be imported into or exported from the United States without the prescribed limitations to be prescribed by the wheat administrator.

Radical Leaders Leave Hungary

Vienne.—There is a crisis in the Hungarian soviet. General Boehm, commander of the army, has been imprisoned. Reports have been circulated that his health required rest in a sanatorium. Stenka's second in command is reported to have fled.

Statements that Bela Kun, the soviet leader, had been given a convict by the allies has led to reports that he has accepted this subterfuge as a means of escaping from Hungary without the intention of returning. It is reported that he has left Hungary thus far, or even departed from the capital.

Minimum Price Of 1919 Crop

Winnipeg.—An afternoon paper prints the following from an Ottawa correspondent: Confirmation was given by Sir Thomas White of the report that a minimum price for wheat will be guaranteed in all probability by the government. What this price is to be Sir Thomas would not say. The intention is to give commercial and financial stability to the marketing of the crop, in view of unsettled world conditions, the unique position created by the United States fixed price, and the uncertainty as to how the world demand would react to the question of wheat export. The fixing of a price gives a guarantee which will facilitate the placing of the crop, it is hoped.

Hot In India

Troops Campaigning in India Suffer Terribly From Heat and Cholera

Peshawar, India.—The continued heat is appalling, but everything is being done to mitigate the sufferings of the troops. Ice plants have been fitted up at Landiotal and Daska and an attempt is being made to supply a pound of ice daily to each British soldier. Special laws have been enacted in the Khyber district for treatment of heat cases. The violent epidemic of cholera, which broke out in June, lasted nearly three weeks and there were 1,663 cases and 566 deaths, principally among the camp followers. Six British soldiers and five natives also died, but the disease is now practically stamped out.

A special train now daily carries troops for short spells to the Murree Hills. The troops are now better housed and fed than in any previous campaign. The firm attendance of the British troops in facing the heat deserves the utmost admiration.

Spain Placed On Low Level

Neutrality Rejected Her in Eyes of the Allies

Madrid.—The neutrality which Spain maintained during the war has belittled her in the eyes of the other powers, declared Sir Pere Calverley, former ambassador to France, in a speech in the senate, during the debate on the reply to the message from the crown, delivered at the recent reopening of the Cortes. The government's policy had been set forth entirely too vaguely, he insisted.

The senate demanded that if possible Spain should ally herself with the allied and associated nations, saying that Spain could not remain isolated from the rest of Europe. If we would raise Spain to the low level upon which her neutrality has placed her," he added, "it is indispensable that her signature be joined to those of Great Britain and the United States on the pact guaranteeing security to France."

Rioting in Stettin
Copenhagen.—A general strike, accompanied by rioting, has started at Stettin, capital of the province of Pomerania, Prussia, according to advices received from German sources. The strike was against the inland harbor transport, water and electrical power workers. The object of the strike is to secure abolition of martial law in Pomerania and other political reforms.

Steamer From Orient Docked
Victoria, B.C.—With 182 soldiers and 150 Chinese in the steerage and 5,000 tons of freight, the *Empress of Japan* docked here from the Orient 11 days from Yokohama. The liner has a valuable cargo of raw silk. Four British officers, Major A. E. Scooby, Captain F. L. Thomas, Captain F. E. Womersley, and Lieut. D. M. Walker, all of whom served with General Maude's forces in Mesopotamia, were passengers.

Strike Investigation Held At Winnipeg

Labor Men Want Robson Commission to Probe Alleged Dis-termination

Winnipeg.—Little progress was made at the opening session of the royal commission to investigate the strike and the Commission, H. A. Robson at the legislative chamber. The session lasted less than one hour, the greater portion of which time was given up to discussing the phase of the strike the commission would probe first, and was then adjourned.

It was practically decided that for the present the commission should occupy itself with inquiries into the effects of the strike, and not the causes, although Judge Robson also pointed out that the calling and conducting of the strike could also be gone into fully. The reasons that made for this course were, as presented by Mr. Murray, representing the trades and labor union, many of the most important individuals who would have to give evidence are at the present time, awaiting preliminary hearings on various charges.

Mr. Murray suggested that the question of alleged dis-termination of the workers who had been on strike ought to be taken up at once. Judge Robson said that the fact that men were out of work was an effect of the strike. How far the commission would intend individual cases to be taken up, he did not know, however, Mr. Murray would be well advised to prepare a list of such cases, and also those whom he was concerned so that they would have the opportunity of representing themselves if they wished. Another matter which the commission would inquire into at the present time, said the commissioner, was the calling and conducting of the strike.

Repair Of War Damages

France Puts Up Millions to Aid in Work of Reparation in Country

Paris.—M. Maurice Klotz has introduced in the chamber of deputies a bill approving an agreement with a company called the Credit National, formed in order to facilitate repair of war damages.

The company's capital is to be 100,000,000 francs, and it will advance funds to a maximum of ten years. The funds will be secured by a loan by France abroad of shares in the company, which are to be guaranteed by the government's budget.

Raisuli Again On Warpath
Spanish Position Is Attacked By the Bandits

Madrid.—Raisuli, the Moroccan bandit, according to an official communication, again has attacked Spanish positions at El Arish, but was repulsed after a long and bitter fight. The raiding party, which Spanish forces had cut off between his camp and Tangier, decided to attack, and the communication said it was carried on furiously. Raisuli suffered heavy losses, leaving many dead or wounded on the field. The communication added that the Spaniards also lost heavily, but they are pursuing Raisuli, who is fleeing into the mountainous country.

U. S. Soldier's Pay Is Small
Washington.—Popular belief in the U. S. that the soldier is higher paid than that of any other country is erroneous, according to an official table issued by the general staff. This shows the three British dominions—Canada, Australia and New Zealand—allow materially higher pay for each soldier than does the U. S. For instance, in the Australian army a corporal earns \$72.90 per month, as compared with \$56 in the U. S. army.

Pantries to Play Fair Dates
Pantries Unrestrained Vandellville will play the entire week of Regina fair. The bill has been specially selected by Mr. Alexander Panteras, and will be found an attraction to out-of-town visitors who like the form of amusements. There will be three shows each day, one in the afternoon and two at night.

61 Druggists May Be Liquor Vendors
Winnipeg.—Sixty-one Manitoba druggists have been licensed to sell liquor during the coming fiscal year, according to 61st year, according to J. MacLean, administrator of the Temperance Act.

No Military Entente With U. S.
London.—A report that Great Britain and the United States has entered into an agreement regarding their respective military establishments was denied in the House of Commons by Andrew Bonar Law, Chancellor of the Exchequer.

For Harvest Help
Winnipeg.—There will be a conference in Winnipeg July 24 to consider the general question of harvest help for the prairie provinces.

Co-Operative Plan Suggested To Aid Stockmen to Get Freed to Cattle, or Cattle to Feed, as Needed

Ottawa.—To relieve the stock-owners in the dry areas of Alberta and Saskatchewan whose herds are threatened through scarcity of feed, the federal government has submitted two proposals to the provincial governments interested. It is proposed to cut up on the Dominion lands in the north, bale it and ship it south to feed the cattle or feed the hay hands of the north, where moisture has been adequate and grass is abundant.

To carry out either or both of these proposals the Dominion government has proposed to the provincial authorities that the cost of securing and moving the hay and cattle be borne equally by the Dominion government, provincial governments, railway companies and stock owners.

Another proposal for division of expense is that it be borne equally by the Dominion government, provincial governments and railway companies. This latter proposal will be adopted, as the stock owners may not be in a financial position to assume any part of the cost. The Alberta authorities have signified their willingness to co-operate, and it is believed will advise that the whole expense be borne by the Dominion and provincial governments and the railway companies.

Forest Fires Caused By Heat
Three Men Trapped in Tunnel of Mine in Salmon River Valley

Nelson.—Three men are trapped by forest fires in a tunnel at the Second Relief mine, near Erie, in the Salmon River Valley. The men are known to have provisions enough to last them for four days.

According to a telephone message received here from Erie, the men are believed to be safe for the time being, although there is danger that they may be suffocated should the flames close in on the mouth of the tunnel.

Several forest fires have started in this district during the past few days as a result of the hot weather. Forest rangers say that the fires are due to have provisions enough to last them for four days.

Britain May Have New Political Party

U.S. Opinion And Irish Question

London.—The British government does not regard the action of the United States senate with respect to Ireland or the acts in the same connection of other persons or bodies representing the United States people, as in violation of Article 10 of the League of Nations covenant, said Andrew Bonar Law, government leader in the House of Commons.

The government, Mr. Law added, would not put the question of the future of Ireland on the program for consideration at the next meeting of the council of the League of Nations.

It appears that Col. Churchill, speaking as a disciple of Lloyd George, spoke for an hour, and reviewed old political differences, and emphasized the necessity for continued coalition of the moderates among the Unionists and Liberals in order to preserve what had been won in the war.

Col. Churchill insisted that co-operation was necessary in order to fight Bolshevism.

The supporting speakers included the chief coalition Liberal and Unionist whips.

The Lord Chancellor referred sympathetically to the future of the Labor party, but some speculation exists as to the new party's attitude of alliance or opposition towards the same.

The dinner ended with the impression that Lloyd George would lead the new Centre party.

Predicts Split In Labor Ranks

Will Have to Take Some Action

Winnipeg.—In the opinion of many union officials, summary action by the Dominion Trades and Labor congress is expected to follow the adoption by the local Trades and Labor Council of the Calgary convention report, amounting to full cooperation of the One Big Union.

The possibility that the local council's charter will be cancelled and formation of a new council comprising unions loyal to the congress authorized, was widely discussed in local circles.

R. A. Rigg, general organizer for the congress in Western Canada, announced that he had telegraphed the Ottawa headquarters about the action taken by the local council and that he expected to learn what steps would be taken soon.

Mr. Rigg spoke for half an hour against the One Big Union before the vote was taken. "It was all arranged, anyhow," he said, "and there was no chance of winning our point as long as the Trades and Labor Council retains its present make-up."

Partially Reduce Russian Blockade
Paris.—The council of five held a meeting, its chief topic of discussion being the Russian blockade. There have been proposals that the powers shall allow ships to enter Russian ports under special permits. It has been suggested that most of the Black Sea ports could be blockaded by the Denkinde government, which is friendly to the allies, but the supreme council has not decided to ask him to declare such a blockade.

Prince of Wales' Tour
London.—It. Hon. Walter Long announced in the Commons that the Prince of Wales would embark for Canada on J.M.S. Renown, at the month, August 5. The Prince will visit St. John's, Nfld., thence proceeding in a light cruiser to St. John, N.B., and Charlottetown, where he will re-embark on the Renown and proceed to Halifax.

Former Emperor Takes a Rest
Amersfoort.—The former German emperor refrained from awaking tears for the first time in several months. It is understood that he is suffering from a cold. The former emperor has experienced a recurrence of his heart affection.

Prices Drop In Germany
Profiteers, in a Panic, Flood Markets

Berlin.—Prices on all foodstuffs have fallen with a crash in Berlin as a result of the lifting of the blockade. They have recovered the medals were Vice Count Minister, Secretary for the Colonies; Winston Spencer Churchill, Secretary for War; Viscount Peel; Baron Weir, Director-General of Aircraft Production; Baron Lovrenworth (Aldrich Weir), former Minister of Munitions, and Felix Casella, Justice Administrator.

In presenting the medals, General Pershing said they were a token of the appreciation of the American government for services rendered by the recipients.

Tons of provisions are being shipped in from occupied territories, while everywhere in the city German stores of coffee, corn, butter, sausage, and other supplies have been their appearance. Coffee prices fell from an average of forty marks to below twenty, and the product could easily be bought for fifteen.

Other food prices were correspondingly cut. Restaurants, however, still maintain high prices and apparently intend to continue to do so as long as possible.

BENSON'S CORN STARCH

HOUSEWIVES are finding new and delicious uses for Corn Starch every day—in fact, for every meal.

Not alone smooth, creamy gravies and sauces, and simple puddings—But crisp, delicate pastries; flaky rolls, bread and biscuits; rich cakes and pies brought them in to show waiters when thought it possible to make in your own kitchen.

Ask your Grocer for BENSON'S To-day!

Insist on BENSON'S no other Corn Starch can guarantee such Purity and Delicacy. Recipes on the package.

Memorial City in Belgium

Inter-Allied Commission Will Re-
commence Founding International
City of "Geopolis"
Brussels.—The inter-allied
commission which discussed the question
of commemorating the war with a
permanent memorial, will recommend
the foundation in Belgium of an in-
ternational city to be known as "Geo-
polis." The city would be built on
one of the sectors of the fighting
front in Belgium, which would be
neutralized, and, according to the
plans of the committee, would be
the permanent seat of the
League of Nations.

To have the children sound and
healthy is the first care of a mother.
They cannot be healthy if troubled
with worms. Use Mother's Friend
Worm Extirminator.

Land Seekers Flock to Canada
Regina, Sask.—The J. E. Martin
Land company of Minneapolis, which
has large holdings in the Snake Lake
district in Saskatchewan, has dis-
posed of 40,000 acres for \$400,000 at
an average price of \$40 an acre, a
grand total of \$1,600,000.
About 300 buyers are en route from
Minneapolis in a special train, being
the third party of land seekers to be
brought up by this firm this season.

Animal Protection Measure Advanced
Westminster, England.—In the
House of Lords the bill making it an
offense to perform certain operations
on horses, dogs, cats and bovines
without anaesthetics was read a sec-
ond time and referred to a select
committee.

New Zealand

Appreciation of Hospitality to New
Zealand Troops Visiting the
United States

Auckland, New Zealand.—Appreciation
of American hospitality to New
Zealand troops visiting the United
States, and the camaraderie of the
battlefront, have brought the big re-
public and dominion of New Zealand
together in pre-war days. This
feeling was emphasized by Lieutenant
Morton, who recently returned to
Auckland from a lecturing tour in
America. An official recognition was
also given by the Wellington City
Council, which sent a vote of appre-
ciation to officials at Panama and
Colon in connection with the treat-
ment of New Zealand soldiers pas-
sing through the canal. It is interest-
ing in this connection to note that
Australia has called its gratitude to
the Panama Canal administration
through the imperial government.

Moving Pictures
For Esquimos

Mr. Leden Hopes to Win Their In-
terest in a Trade Mission
New York.—Moving pictures, for
Esquimos are to play an important
part in an Arctic expedition which
has left here under the direction of
Christian Leden, Arctic explorer and
ethnologist. Mr. Leden will show
the Esquimos moving pictures of his
own life and adventures in the arctic
way to win their interest in a trade
mission which the expedition is ex-
pected to develop.
The explorer and four companions
sailed on an auxiliary yacht and ex-
pect to remain in the frozen north for
several months. In addition to a
cargo of lumber with which to build
houses, the yacht carries a supply
of goods and ends for trading
purposes, in return for which the ex-
plorer hopes to obtain gold, copper
and other minerals.

**LEMONS WHITEN AND
BEAUTIFY THE SKIN**

Make This Beauty Lotion Cheaply for
Your Face, Neck, Arms and Hands
As the cost of lemon juice is so low,
a little cream one can prepare a full
bottle of lemon lotion and complexion
tonic. To make it, take one cup of
two fresh lemons into a bottle con-
taining one quart of water. Squeeze
the juice through a fine cloth into the
bottle, being sure to strain the juice
thoroughly. Every woman who
uses this lemon juice is used to
bleach and remove such blemishes as
freckles, sunburns and tan, and is
the ideal skin softener, whitener and
tonic.
Just try it! Get three ounces or
more of this at any drug store.
The lemon juice is so strong that it
quarantines this skin, and makes it
fresh, moist, and supple. It is used
daily into the face, neck, arms and
hands, and makes the skin so smooth,
fresh, red, and healthy.

Bit By Bit
"I'm afraid your wife's mind is
gone."
"I don't wonder at it, considering
that she has been giving me a piece of
it for so long."

"Black Watch"—The Best Black
Plug Chewing Tobacco on the Market

**Canada Wants Big
Poultry Industry**

Preaching the Gospel of Increased
Poultry Production to Canada
Montreal.—The hens of Canada, if
properly encouraged, could pay the
nation's war debt in a few years, ac-
cording to F. C. Elford, apostle of the
barnyard chicken.
The 1,000,000 farms of Canada
should have 100,000,000 hens on them,
and there should be 10,000,000 addi-
tional hens in towns and villages. At
a low estimate of ten dozen eggs
from each hen, these hens would pro-
duce 1,000,000,000 dozen eggs. If these
eggs sold at 60¢ a dozen, which is
below the present price, Canada's
egg crop would bring in \$600,000,000
a year.

Mr. Elford is preaching the gospel
of increased poultry production to
Canada. He wants especially to get
the settlers who are now pouring
in upon the land the message that
under present food conditions the
barnyard fowl lays golden eggs.
Nearly a billion chickens are raised
yearly in the U.S. In 1900 Uncle
Sam's wealth from poultry and eggs
was greater in money value than the
world's output of gold or silver. In
1899 the value of all the wheat, corn,
barley, rice, buckwheat, rice, flax,
fruits, sugar cane and sugar
beets raised in the United States was
less than the revenue from chickens.

Community Movement

Says Winnipeg Will Have 50 Com-
munity Clubs in a Few
Years

F. C. Middleton, selling secretary
of the Social Service Council, predicts
that in the next few years Winnipeg
will have 50 community clubs. The
community movement is gripping the
city as well as the country, and the
recent slump in Winnipeg has shown
the need of a united citizenship.

Canals and politicians live off
other people.

**SUMMER COMPLAINTS
KILL LITTLE ONES**

At the first sign of illness during
the hot weather give the little ones
Baby's Own Tablets or in a few
days it may be beyond aid. These
Tablets will prevent summer com-
plaints if given occasionally to the
well child, and will promptly relieve
these troubles if they come on sud-
denly. Baby's Own Tablets should
always be kept in every home where
there are young children. There is
no medicine as good and the mother
has the guarantee of a government
analyst that they are absolutely safe.
The Tablets are sold by medicine
dealers or by mail at 21 cents a box
from The Dr. Williams Medicine Co.,
Brookville, Ont.

Modern Conditions

Customer: See here, art, we can't
get any of your waltzes to take our
orders.

Hotel Manager: Beg pardon, sir, but
in view of the present shortage of
help our waiters no longer take or-
ders, they receive refusal!

Sores Heal Quickly.—Have you a
persistent sore that refuses to heal?
Then, try Dr. Thomas' Eucalypti
in the dressing. It will stop itching,
carry away the proud flesh, draw
out the pus and bring the sore to a
heal for the new skin. It is the recog-
nized healer among all the ointments
people can certify that it healed where
other oils failed utterly.

**Germans Will
Always Be Hung**

Premier of New Zealand Has No
Faith in Reformation
Vancouver, B.C.—"The Hungs were
Hung 2,000 years ago, they are Hung
today, and they will be Hung to the
day of judgment, and perhaps after-
wards," said the Hon. W. Massey,
Premier of New Zealand, giving his
opinion of the reformation of the
German people. He said he would
address to the members of the Cana-
dian club.

"I have no faith in the reformation
of the Germans," said Mr. Massey,
who further emphasized his dis-
trust of any lasting improvement in
the defeated enemy by giving it as his
opinion that German chemists would
be at work soon, if they were not
ready at work, devising new methods
of destruction for use when the pro-
hibitory action of the League of Na-
tions is broken down. He said he
mistake made with regard to the
conclusion of peace, in the opinion of
the speaker, was in not dictating a
victorious peace on the soil of Germany.

Channel Tunnel Project Discussed

Westminster, England.—A meeting
of members of the House of Com-
mons, held to discuss the report on
the Channel tunnel, unanimously
decided that the project should be
left to private enterprise, but should
be executed jointly by the two na-
tions, and adopted a resolution ask-
ing for the government's support as
the best proof of Great Britain's de-
sire to maintain and improve her
friendship and alliance with France.
A deputation was appointed to ap-
proach the Prime Minister.

**IT CURES
CATARRH
BRONCHITIS**

You don't have to wait for relief when
you use Catarrh Cure.
This wonderful Italian
treatment is guar-
anteed to cure all
cases of Catarrh, no
matter how long it
has been there.
You breathe through
this inhaler, and in
a few days you are
free of the trouble.
It is a simple, safe,
and effective treat-
ment. It is the only
treatment that is
guaranteed to cure
all cases of Catarrh
and Bronchitis.
It is the only treat-
ment that is guar-
anteed to cure all
cases of Catarrh
and Bronchitis.
It is the only treat-
ment that is guar-
anteed to cure all
cases of Catarrh
and Bronchitis.

Two months' treatment
for Catarrh and Bronchitis
at \$1.00. Small
bottle 50¢. At all dealers,
or by mail, at 21 cents
a box from The Dr. Williams Medicine Co.,
Brookville, Ont.

**Britain's Progress In
Food Production**

Farmers Did Much to Turn Scale
Against Submarines

London, Eng.—Prof. Frederick
Keeble at the Royal Institution re-
cently delivered the first of two ad-
resses on "Intensive Cultivation,"
in the course of which he gave an
interesting survey of the remarkable
increase in food production in Great
Britain during the period of the war.
Farmers, he said, made up more than
the scale against the submarines, and
during the later stages of the conflict
the allotment holders accomplished
positive wonders.

A contrast between the German
people and the British was furnished
by the fact that before and during
the first year of the war the Germans
were producing some 42,000 tons of
potatoes, which they regarded as the
best vegetable food, against 7,000 tons
produced in Great Britain. In 1917,
however, the Germans shot their bolt
and their production rapidly fell off
it will be an utter collapse, whereas
Great Britain's steady and
determined effort rose to a remarkable
extent. It had been a mistake to
decrease the acreage available for the
cultivation of soft fruit, but the peo-
ple now were learning that fruit and
vegetables were as important articles
of food as meat and grain.

The men who had worked under
graduated and with such
conspicuous success to increase the
food supplies had earned, in his
opinion, the gratitude of the nation.
The result of the general adoption of
the allotment scheme was that there
was now a very widespread desire to
grow things, and this was going to
prove a difficult question and would
have to be dealt with in a statesman-
like manner.

Most important had been the pro-
duction of food by the army itself.
The army had achieved notable re-
sults, especially in France and Ita-
ly, and their work in this re-
spect showed that the army did not
what it undertook to do. In his
opinion, there was now a distinct op-
portunity for profitable cultivation in
Great Britain.

This is to certify that fourteen years
ago I got the records of my left wrist
covered, and was for about six months
that I had no use of my hand, and
was unable to do any work. I was
suffering from a severe case of
RAUMATISM, and used one
of your bottles of MINARD'S
LINIMENT. I used it in my hand very
often, and found it the same as when I first
used it, and it cured me.
ISAAC E. MANN
Metairie, La.
Aug. 31st, 1908.

Allied War Veteran Plan

Sydney, New South Wales.—The
Returned Sailors' and Soldiers' Im-
perial League of Australia has been
approached, with a view to affiliation,
by organizers of a society of allied
veterans, which is being formed
by repatriated American soldiers.
Probably the movement for an inter-
national veterans' association will take
shape before that of allied war veter-
ans.

War Facts And Figures

Some Details of Of Immensity Of
British Air Operations

These are some of the amazing
facts in Sir Douglas Haig's last des-
patch:
General Headquarters received
our airmen in one day, and 3,400
letters by dispatch-riders. One
army headquarters had 10,000 tele-
grams in a day, and the daily tele-
grams on the lines of communication
were 23,000.

There were 1,500 lines of telegraph
and telephones, and 3,608 miles of
railways, on which 1,800 trains ran
in six weeks.

Some 5,000,000 rations were
supplied by our armies in France,
to 800,000 civilians in the relieved
areas.

200 tons dead weight of supplies
and stores were required daily for
the maintenance of each division.
The total daily ration strength of
our armies was 2,700,000. An addi-
tion of one ounce to each man's ra-
tion represented an extra 75 tons.

Over 400,000 tons of food and
7,000 motor vehicles were used, and
4,500 miles of road made or main-
tained.

In 1914 there was one machine-gun
to 500 infantrymen in the British
Army; at the armistice there was one
machine-gun to 27,000 men.

Over 700,000 tons of ammunition
were fired by our artillery on the
Western Front from last August to
the armistice.

Yager: "Why did you give up that

**Supplying Farmers
With Breeding Stock**

Saskatchewan Department of Agri-
culture Encouraging Mixed
Farming

The Saskatchewan Department of
Agriculture, with a view to encourag-
ing mixed farming, will supply farm-
ers with breeding stock at first cost.
The department has at Regina 24
pure-bred bulls, including Short-
horns, Herefords, Friesian Herefords
and Aberdeen Angus. Not a few
farmers are starting to raise pure
cattle, engaging in dairying or starting
with small flocks of sheep, and it is
with the intention of encouraging this
that the livestock branch is making
the above offer. As orders come in,
more sires will be purchased, and
Ayrshires and Holstein sires will also
be secured for pure breeding. These
sires are sold for cash or on easy
terms. Last year 125 were sold
through the department, and this year
it is expected that between 150 and
175 will be sold.

Britain Leads

Britannia Rules the Air as Well as
the Waves

The New York Tribune points out
that in 1914 Germany was first,
France was second, Italy was fourth
and the United States was last in the
production of aircraft, as shown by
the amount of money each was will-
ing to spend on that arm of prepared-
ness. When the armistice was signed
on November 11, 1918, the per-
centage of the military air force in
each of these countries was as fol-
lows:

Great Britain	295,000
United States	180,000
Italy	100,000
France	80,000
Germany	Unknown
Japan	Unknown

Britain's lead, in evidence of
which appropriations for the year
1919-20 follow:

Experiments and research in civil aviation	\$15,000,000
Military and naval (joint ser- vice)	\$15,000,000
Total appropriated for the air	\$30,000,000

The amount which is being spent
in Sir Douglas Haig's last des-
patch "Britannia Rules the Waves."

Gold in Northern Manitoba

Claim Rich Gold Field North of the
Pas, Near Copper Mines

The Pas, Man.—Measuring twenty
feet wide and five thousand feet
in length, comprising a solid dyke of
quartz containing gold, has been
found at Copper Lake, north of here,
by J. F. Gordon, chief engineer
of the Hudson Bay railway. Mr.
Gordon states that the values are
uniform throughout and average
between nine and fourteen dollars to
the ton.

Increasing prospectors confirm the
promise of the discovery and a mild
rush has already begun to the scene
of the strike. Copper Lake is east
of the Flin Flon copper mines, and
it is also the scene of the finding of
fish fossils a short time ago.

CANADIAN INDUSTRIAL CONGRESS

Detail of plans, program and attendant features of the Canadian Industrial Congress, to be held at Calgary on August 13 and 14 and to include a tour of the province by special train, has now been completely worked out by the congress headquarters, located at the Palliser Hotel, Calgary. Announcements that reservations are being made for the special train tour, for the congress sessions which are to be held in the Grand Theatre, Calgary, and for hotel accommodation.

The special train, it is announced, will leave Medicine Hat on the morning of August 12, will then travel to Lethbridge, from there to Calgary, will be held here for two days during the congress session, then will travel to Edmonton and from the capital city will move to Banff, arriving in the Rockies on Sunday morning August 17.

The theatre sessions will open in the morning at 10 o'clock on Wednesday, August 13, and will continue until 6 o'clock that evening, with intermission of two and one-half hours for luncheon, and on the following day, Thursday, will open at the same hour. There will be no evening sessions at the theatre, that portion of the day being utilized with entertainment and motoring. The program is perhaps the most impressive ever gotten together at one industrial gathering at the conference, including among others, Sir Robert Borden, H. W. Beatty, D. B. Hanna, Henry Ford, A. R. Erskine, Finley P. Mount, and many other industrial leaders of continental and world fame.

Congress headquarters asks that all who desire reservation on either the special train, the congress sessions at Calgary or for hotel accommodation write or wire to John M. McCreery, congress manager, Palliser Hotel, Calgary, Canada, as early as possible.

C.P.R. OFFERS CUP FOR HARD SPRING WHEAT

In connection with the International Farm Products Exposition which will be held at Kansas City, Mo., September 24 to October 4, the Department of Colonization of the Canadian Pacific Railway is offering a sweepstake cup of the value of \$500 for the best half bushel of hard spring wheat exhibited. It is hoped that every farmer in Alberta who has a good sample of wheat this year will submit a half bushel in this competition. Those competing for this cup will automatically become competitors for the prize offered by the International Farm Congress in this class, which includes a first, second and third prize. In addition they have a chance of winning the sweepstakes for wheat. The winning sample of hard spring wheat is usually the best exhibit of wheat shown at the exposition and that wins the sweepstakes prize, and the exhibit from Western Canada generally carry all before them in this class. Last year the C.P.R. cup, the sweepstakes for wheat and the first prize for hard spring wheat were won by Seager Wheeler, of Neethan, Sask., with H. B. Shesley, of High River, Alberta, a good second. No cup was offered by the C.P.R. in 1917, but the sweepstakes for wheat and first prize for hard spring wheat were won by Samuel Lacombe, of Hirdle, Manitoba; in that year.

In addition to the above, there valuable prizes will be offered for every variety of field crops. Of late years farmers from Western Canada have carried away a large number of prizes, and no doubt their exhibits will be conspicuous again this year. An official premium list of the exposition should be ready in a few days, and a copy can be obtained by writing to the secretary of the International Farm Congress at Kansas City, Mo.

M. D. OF CEREAL

Council met in the municipal office, Oyen, July 9th, 1919. Present: Reeve W. J. Ada; Deputy Reeve J. P. Roraback; and Councillors, Abbott, Church, Taylor and Nichols. Roraback—That minutes of last meeting as now read be adopted.

Abbott—That we pay H. P. Hafidahl, \$25.00 for use of land used for road diversion on the NE of 26-26-6, as per contract of April 1st, 1920.

Roraback—That this council approves of the settlement made by the secretary with the Hail Insurance Board.

Roraback—That the Reeve and treasurer be empowered to make arrangements for funds to pay the Hail Insurance Board balance due to them.

Taylor—That we refund to Fred Radtke the sum of \$175, being overcharge on 1918 municipal taxes.

Abbott—That the secretary be instructed to change the hall taxes on the SE and NE of 21-26-4 to read as follows: SE, \$28.18, and NE, \$42.25, balance to be cancelled.

Taylor—That roadwork payments, Pay Sheet No. 1, Division No. 6, as follows be passed: W. T. A. Walker, \$63; M. Oien, \$63; Joseph Woods, \$42; Jas. Hutchison, \$105; Fred White, \$42; T. H. Shields, \$10.50; N. Anderson, \$136.50; B. Boe, \$105; Wm. Bishop, \$65.75; E. Thygeson, \$47.25; J. H. Maize, \$110.25; W. M. Williams, \$110.00.

Taylor—That roadwork payment, Pay Sheet No. 1, Division No. 2, as follows, be passed: F. S. McNece, \$75.

Roraback—That the following accounts be passed: Oyen Hardware Co., \$9.15; W. H. Peterson salary, \$125; N. Anderson, culvert, lumber, \$15; W. R. Meacham, postage, \$20; W. H. Peterson, expenses to Calgary, \$21.70; Levi Lindley, putting out gopher poison, \$6; F. O. Jacques, gopher poison, \$9; Fred Cain, gopher poison, \$12; Paul Barnes, gopher poison, \$6.

Roraback—That the following gopher bounty payments be passed: M. Chase, \$22; Elmer Anders, \$1; Steve Sullivan, \$1.50; Robt. Barron, \$9; Bessie Thornton, \$5; Irvine Wright, \$5.50; Paul Lindley, \$1.50; Maynard Regan, \$1; Albert Duffield, \$5; William Desmond, \$5; Wm. Desmond, \$7.50; E. Stephenson, \$5; Max Godfrey, \$1; Del Burkholder, \$3.75.

Church—That the secretary write the Canadian National Railway in reference to the state of the crossings in this district.

Abbott—That we borrow the sum of \$1,000 from the Bank of Toronto for municipal purposes.

Abbott—That Councilor Taylor be instructed to use all necessary means for the recovery of road work belonging to Division No. 2 of this municipality.

Abbott—That we purchase from the Burrows Adding Machine Co., one adding machine, style No. 310, at a cost of \$225, to be paid for as per terms of contract.

Church—That we do now adjourn to meet at the municipal office in Oyen on Wednesday, August 6th, at 10 o'clock a.m.

BASEBALL

Oyen Defeats Loverná 14 to 1

In a one-sided game at Oyen on Thursday the Oyen team defeated Loverná by the score of 14 to 1. This match proved interesting for the fans as the local team all through the game proved too strong for the visitors.

Null sed!

At the Oyen theatre, Fair Days, Aug. 4th and 5th, special pictures at 8 p.m. each night. Adults 50c children 15c. A big dance will be held in the evening of the 5th. Good music. Admission Gent's \$1.00, Ladies 50c.

KEEP THE WEEDS DOWN

Weeds will grow where anything else will grow. If they are not destroyed they will ruin any crop. Survival of the fittest is an inexorable law of nature, and the weed, being propagated by natural methods, has an immense advantage in competition with a cultivated crop.

Constant attention is the only remedy. Once the crop is sufficiently above ground to be distinguishable, cultivation of the soil to kill the weeds should be commenced and should be continued till the crop is high enough to crowd the weeds out. This cultivation is also necessary for good growth as it permits the soil to retain moisture during dry weather and leaves the surface in better condition to absorb rainfall.

THE TIME TO ADVERTISE

There is nothing on earth so mysteriously funny as a newspaper advertisement. The prime, first and last and all the time, object of an advertisement is to draw custom. It is not, was not, and never will be designed for any other human purpose. So the merchant waits till the busy season comes and his store is so full of customers that he can't get his hat off, and then he rushes to the newspaper and puts in his advertisement. When the dull season gets along and there is no trade and he wants to sell goods so bad he can't pay his rent, he takes out his advertisement. This is, some of them do, but occasionally a level headed merchant puts in a bigger one and scoops in all the business while his neighbors are making mortgages to pay their

gas bills.

There are times when you couldn't stop people from buying everything in the store if you planted a cannon behind the door and that's the time the advertisement is sent out on its holy mission. It makes light work for the advertisement, for a chalk sign on the sidewalk could do all that was needed and have a half holiday six days in the week, but who wants to favor an advertisement? They are built to do hard work and should be sent out in dull days when a customer isn't to be knocked down with hard facts and kicked insensible with bankrupt reductions and dragged in with irresistible laughter of prices before he will spend a cent.

Work Is Our Salvation

The signing of the peace treaty, and with demobilization the army so well advanced, that so far as Canada is concerned, July 31 has been fixed as the official date by which demobilization will be completed, as having been completed, brings the nations of the world to close grips with vital domestic problems of reconstruction. It was, of course, impossible to turn the world upside down for five years during which the energies of almost all mankind and the resources of all civilized nations were devoted to wars of destruction without creating conditions which will require much time, great patience and almost infinite wisdom to restore to normal.

The necessities of war forced the abandonment of many sound business principles. The need of securing supplies in large quantities at a moment's notice resulted in the payment of unheard of prices for these supplies, and the payment of higher prices of wages in order to secure the necessary output than had hitherto been known, especially as countries of millions of men had been drawn from productive enterprise into the armies. The inevitable result was the doing of business in many extravagant ways because output was demanded regardless of the cost. And this excessive cost of production, coupled with the wholesale destruction of property and wealth which was taking place all over the world, led to an increase in the cost of living which has become a burden almost too great to be borne. This, in turn, led to still higher wages, and higher wages again increased costs of production.

It is recognized that this cannot persist. If it does, the point will finally be reached where inflation will end in depression, a stoppage of industry, and widespread unemployment. Should that unfortunate condition be created then wages will take a tumble, because under the stress of necessity men will be forced to do anything in order to get work and supply the needs of themselves and families. In Canada, we do not want to reach that stage, and it is therefore, the duty of Government and people alike to direct their minds and bend their energies to eliminating further waste and reducing the cost of living.

Wages undoubtedly must and should be maintained at a fairly high level, and there will be much sympathy with the demand of all workers for an adequate return for their labor. But a halt must be put to the almost universal demand for a marked shortening of the hours of labor and a consequent decrease in production which means an increased price for the article produced. In these days people should be willing to work longer hours, and thus assist in increasing production to make good the waste and destruction of the past five years, rather than insist upon performing less work. By so doing they will be working out their own and their country's salvation and warding off depression and further loss.

Great Britain, for example, is facing a national crisis as a result of the high wages and short hours demanded by the coal miners and which have made necessary an increase of \$1.50 a ton in the price of coal. This means an increased cost of fuel to the people, increased transportation charges on railways and steamships, increased manufacturing costs of all goods, and because of these increased costs of production a decreased ability to compete for trade in the export markets of the world, and consequent loss of trade. The coal mining industry could stand the paying of the higher wages, but the shorter hours of employment means such a loss in output that the combined loss is staggering and, of course, in the final analysis, the people must pay it.

In Canada we are face to face with somewhat similar conditions and the country is passing through an era of industrial strikes which, as Premier Borden has pointed out in an appeal to the people for co-operation, are almost as destructive as war itself. There should be no strikes in Canada. They entail loss of life and property, and are an unnecessary survival of a bygone age, because we now have all the necessary machinery of arbitration to settle any disputes which may arise.

Canadians need to arouse themselves to full recognition of the fact that true patriotism at this time demands the rendering of just as unselfish service as was given by our soldiers in the call of the call of patriotism will not lead men and women to render such service, then we are in for a long and painful period to avert nation-wide depression and unemployment. Our soldiers did not cavil at the long hours of labor they put in for us and our country's cause. Nor should the workers of Canada now demand a reduction of hours of labor to an extreme minimum.

In some quarters the fallacious doctrine is preached that it is necessary to shorten the hours of individual labor in order to supply employment for all. The reverse is true. The greater the production, the greater the wealth produced and the greater the amount of new employment which will be provided. Adversely, restrict the output of any essential commodity, say coal as in Britain, and the output of all other industries is adversely affected and the amount of employment lessened.

Let a high standard of wages be maintained, but let our people be willing to shorten their hours longer hours than before the war, and throw their whole energy and capacity into their work during their hours of labor. Only so will they save themselves and their country from an even more perilous position than that of the Great War.

Wat.

Hot For Arctic Explorer

Stefansson Simply Couldn't Stand New York's Heat

New York-Vihjalmur Stefansson, Arctic explorer, has since his five years' expedition in the far north for the Canadian Government has been engaged in writing a book telling of his experiences and scientific researches, left here for Glacier, B.C. for a few good winters. He said he found New York's sweltering, subnormal climate "vilest."

"The trend of civilization is northward," he said. "I believe that the northern part of the United States and Canada will develop the best products of our civilization. The climate is admirably suited to physical and intellectual health and vigor."

After German Trade

London—Great Britain is preparing to resume her country's trade with Germany soon, and to give every facility for British firms to distribute goods there, says the Daily Mail.

Foodstuff Prices Drop In Britain

Overseas Government Is Not Buying Food Surplus Now

Ottawa—Tropics are being received by the government as to drop in the price of export cheese. During 1917 and 1918 the British government purchased the exportable surplus of cheese, payment being provided from funds furnished by the Dominion government for the purpose. This year the British government decided not to purchase the cheese, but to allow it to be traded in by private dealers as before the war. The same course has been followed with bacon and many other foodstuffs, which during the war were purchased by the British government and have become subject to trading in the open market under world competition. The British fixing of prices in Great Britain will necessarily affect imported commodities, the prices of which are so fixed. It is pointed out that the good European countries where the cost of living is so high will naturally endeavor to procure for co-operation, are almost as destructive as war itself. There should be no strikes in Canada. They entail loss of life and property, and are an unnecessary survival of a bygone age, because we now have all the necessary machinery of arbitration to settle any disputes which may arise.

Town And Country Men

The theory so commonly held a few years ago that the farm household would fall to the least ambitious son, to be managed and exploited as he could, has been largely exploded by the son himself, who turned out in many cases to be a better manager than the brothers and sisters who made a multi-life descent upon the bright farm. In the wreckage of this theory can be seen many thousands of farmers dragging themselves through the futile routine of city office work. Of course, where they are doing this, it is necessary and to the outside, perhaps, quite glittering. The exalted farm boy in the city knows better—Indianapolis News.

The Pill That Brings Relief.—When, after one or two failures of a meal, he is oppressed by feelings of uneasiness and pains in the stomach, he suffers during the hours of individual labor in order to supply employment for all. The reverse is true. The greater the production, the greater the wealth produced and the greater the amount of new employment which will be provided. Adversely, restrict the output of any essential commodity, say coal as in Britain, and the output of all other industries is adversely affected and the amount of employment lessened.

Change of Base.—In a railway carriage a youth had been sitting for some time, the passengers by loud and foolishly insane remarks during a great part of the journey.

As they passed Huxwell, he remarked: "I often think how nice the asylum looks from the railway."

"Some," he growled at the gentleman, "you will probably have occasion to remark how nice the railway looks from the asylum."

Don't hurl defiance unless your aim is good.—Life.

5,000 OUT OF WORK

Not men, but corns that were put out of business. As the corns are the Corn Extractor. No corn can live if treated by Putnam's. It is safe, painless and sure.

The Policy Of "Grab"

Hugl To Get Back to the Base Days Of Moderation and Peace

It is difficult for the ordinary man to understand why, now that the war is over and industries everywhere are once more busy producing for peace purposes, there should not be a return to something like normal conditions. Financial experts can explain the matter completely to their own satisfaction, but to the ordinary man on the street it appears as if it is just a case of "get it back to the money" of the war has demoralized all classes, and it is hard to get back to the sane days of moderation and peace. The war's progress cannot go on indefinitely, however, and the sooner this is recognized by governments and producers the better.

Reparation By Germany.—Doubtless Germany pretends that she is ruined. She declares herself incapable of paying the sums which the thoughtless and unbusinesslike agreement of the allies have demanded from her to repair the damages which she alone is responsible for. But does she plead her misery on account of genuine incapacity to pay, or in order that she may guard her capacities for revenge?—From the Tempe, Paris.

Brand Whitlock to Italy.—Paris—Brand Whitlock has been named as American ambassador to Italy. Brand Whitlock at present holds the post of minister to Belgium, to which he was appointed in 1912. He succeeds Thomas Page, who recently resigned.

LISTLESS, PEEVISH GIRLS

When a girl in her teens becomes peevish, listless and dull, when she seems listless and peevish, it is not to tempt her appetite, you may be certain that she needs more blood than her system is capable of providing. Before long her pallid cheeks, her headache, and her listlessness and heart palpitation will convince you that she is in need of blood.

There is the result of their own girl's experience can promptly detect the early signs of anemia, and the wise mother does not wait for the trouble to develop further. But at once give her daughter a course with Dr. Williams' Pink Pills, which renew the blood supply and banish anemia, before it has obtained a hold upon the system.

Out of their experience thousands of mothers know that anemia is the sure road to worse lists. They know the difference that good red blood makes in the development of womanly health. Every headache, every fainting spell, every nervousness, the slightest exertion by the anemic girl, every pain she suffers in her back and limbs are reproaches if she has not taken the best steps to give your weak girl new blood, and the only sure way to do so is through the use of Dr. Williams' Pink Pills. New, rich red blood is infused into the system, giving new vigor and health. From this new rich blood springs good health, an increased appetite, renewed energy, high spirits and perfect womanly development. Give your daughter Dr. Williams' Pink Pills, and take them yourself and tell how promptly their influence is felt.

Belgian Contributions Stop

Boston, Massachusetts.—At a meeting recently the executive committee of the New England Belgian Relief fund voted to cease receiving further contributions for the work in Belgium.

Halloway's Corn Cure

This is to be continued for a Long Time

Washington, D.C.—The daylight saving plan, under which the clock is turned one hour forward, is to be continued indefinitely. This was assured when, following President Wilson's veto of the \$11,000,000 agricultural appropriation bill because of its rider repealing the Daylight Saving act, the house refused by a vote of 247 to 145 to pass the measure over the President's veto.

House advocates of the repeal said after the agricultural bill had been sent back to committee for elimination of the repeal provision, that no further effort would be made at this session, perhaps not in this Congress, but that the measure would be reintroduced in 1921, to wipe out the Daylight Saving act. There was no indication, however, that the house would be able to strengthen the force.

Burglar-proof safes and fireproof buildings seldom are.

Labor Enquiry

Preliminary Arrangements for the Coming National Industrial Conference

Ottawa.—The labor sub-committee, under the chairmanship of Senator Robertson, will meet in Ottawa to make preliminary arrangements for the coming national industrial conference. The labor sub-committee is an offshoot of the cabinet reconstruction committee, and has among its members representatives both of capital and labor.

It will consider primarily: (a) The demand when the national industrial conference shall meet; (b) How the various associations and unions of employees and employers will be represented; (c) The method by which representatives will be chosen.

It is expected that the conference will be held in Ottawa. The date will be as early as possible, possibly in August.

German Competition

According to a German firm of a large contract for engineering in Holland at \$100 a ton below a British competitor's tender price is a significant event. If the Germans are going to work hard and accept moderate wages and low profits, they are certainly the end to capture much business in the future as the British. Competition is beginning to lock up already.—Montreal Gazette.

Land Settlement For British Soldiers

1,000,000 Former Imperial Soldiers Planning to Leave for Overseas Domains

Toronto, Ont.—When passing through this city en route for Christopher Turner, of England, who is in this country for the purpose of investigating the Union Government's land settlement plan for British soldiers, said that there are 1,000,000 former holders of the imperial forces in England who are planning to leave the next two years to engage in farm work, and declared that there is immediate need on the part of the Government of Canada of strong effort to attract the greater part of these men to the Dominion.

Speaking of the land settlement of the British Empire, Mr. Turner said: "It is appalling that out of about 60,000,000 fully able population, only about 13,000,000 are on the land, while Germany, one-sixth as large as the British Empire, has 25,000,000 on the land, and France 18,000,000." In order to remedy this condition of affairs, he explained that there is being formed in England a ministry of emigration, whose duty it will be to settle as many as possible on the lands of the British Empire. A steady surplus of land-yielding countryside will be encouraged to come to Canada and other dominions. These men, he said, would probably settle in communities of about 150, the plan most attractive to the former soldier being that of holding with sufficient capital to operate it.

Daylight Saving In U. S.

Is to Be Continued for a Long Time

Washington, D.C.—The daylight saving plan, under which the clock is turned one hour forward, is to be continued indefinitely. This was assured when, following President Wilson's veto of the \$11,000,000 agricultural appropriation bill because of its rider repealing the Daylight Saving act, the house refused by a vote of 247 to 145 to pass the measure over the President's veto.

Food Problem In France

Paris, France.—The cabinet considered the problem of the highest cost of living. According to the Echo de Paris the government is considering the problem of the highest cost of living. According to the Echo de Paris the government is considering the problem of the highest cost of living.

The figure says the government is discussing the prohibition of the exportation of butter, eggs and cheese. Other newspapers declare that the government intends to pass a law inflicting severe penalties on food speculators.

Other Tablets Not Aspirin At All

Only Tablets Marked With "Bayer Cross" Are Aspirin

Don't You See the "Bayer Cross" on the Tablets, You Are Not Getting Aspirin—Only Bayer Tablets.

Genuine "Bayer Tablets of Aspirin" are marked with the "Bayer Cross" and the name "Bayer" is printed on each tablet.

Handy tin boxes of 12 tablets—also larger sized "Bayer Tablets"—can be had at drug stores.

Monopacacetic acid of Salicylic acid.

Handy tin boxes of 12 tablets—also larger sized "Bayer Tablets"—can be had at drug stores.

Can Trade With Germany

Washington.—General licenses covering import and export trading with Germany were issued by the trade division of the state department with the approval of Acting Secretary Polk. Except in certain limited cases, provided under the treaty of peace, trading between the United States and Germany may be commenced at once.

If a man calls on a woman she is pleased—either when he comes or goes.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high-heeled shoes, they suffer from corns, then they cut and trim at three places, and finally they resort to the corn grower. This suicidal habit may cause lockjaw, and women are warned to stop it.

A few drops of a drug called freeze-one applied three times a day to sore corns gives quick relief, and soon the entire corn, with all its little, little, little pain, is gone. Ask the drug store man for a quarter of an ounce of freeze-one, and apply it to the corn. It is so simple to remove every hard or soft corn.

This drug is an ether compound and dries in a moment and simply shrivels up the corn. It is not irritating the surrounding tissue or your wife's dresser.

Each cupful of PEPSI is so pure, drug free and wholesome that no question arises as to the second or third cupful, or "should the children drink it."

There's a Reason.

Improved Farm Lands

Are in demand at the present time.

We have several enquiries for going con-
cerns from a half section to two section tracts.
Hand in your listing (if you wish to sell) to—**Swenson & Lees**Agent for The Resources Department Canadian National
Railways. Agents and Appraisers for
Oiler Hammond & Nanton, Winnipeg.**For Farm Lands, Loans
AND
INSURANCE**I am now in my new offices with **Mr. C. Gil-**
the Massey-Harris Agent.I have some big Snaps in Choice Improved
Quarries, Halves and Sections. Terms, a small
cash payment, balance to suit purchaser.Now is the time to buy, when land is cheap and
prices of grain high. One crop will pay for a good
farm.

See my list before you buy.

What about that loan?

The companies that I represent still have
money to loan on improved farms.

A few houses in town. Easy terms.

Have you all your buildings and contents fully
insured?**Chas. H. Longueay,**Life, Fire and Hail Insurance. Real Estate
Money to loan.

M. D. of BERTAWANMinutes of meeting of council
of Municipal District of Ber-
tawan held at Sibbald, on Saturday,
July 5th at 2 p.m.Present: Reeve Trewin, Coun-
cillors Ayer, Caswell, Denton,
Hugill and Young.Minutes of previous meeting
approved.A letter was read from Reg.
Cornell, claiming damages for in-
jury sustained to his car by run-
ning into stones deposited on the
road allowance on the east side
of the north-east quarter of 3-28-
3. The secretary was instructed
to notify Mr. Poole to remove the
stones and to settle with Mr. Cor-
nell for the damage done to his
car.A complaint was received from
Benton Valley Local U.E.A. re
stones thrown on the road allow-
ance on the east side of 27-27-3,
north half of section. The secre-
tary was instructed to write to
the owner of the land giving him
a specified time in which to re-
move the stones.A letter was read from the Al-
sadd Returned Soldiers' League
asking for assistance to the funds
of the league. The secretary was
instructed to write the league
that as soon as the amendments
to the present municipal act were
received from Edmonton, it
would be necessary for the coun-
cil to write off a very large
amount of soldiers' taxes, and in
view of that fact, and the general
conditions in the country at pres-
ent, the municipal district was
not at present in a position to
donate.Mr. Sletkoln interviewed the
council with reference to a former
decision of the council to guaran-
tee the borrowings of the Ber-
tawan Co-operative Credit Soci-
ety, and pointed out that the ac-
tion of the council was contrary
to section 19 of the Municipal
District Act. The secretary was
instructed to write the depart-
ment for information as to said
section.The resolution guaranteeing
the borrowings of the Highland
Park Co-operative Credit Society
as required by the act authoriz-
ing the same was carried.Moved by Caswell, that the
council give the necessary guaran-
tee to the Benton Valley Co-
operative Credit Society on pre-
sentation to the secretary-treas-
urer of the charter incorporating
that society. Carried.The secretary was authorized
to purchase two freeways for road
crew.The secretary was authorized
to cancel all surveys that the de-
partment may have requested to
make this year, as it was consid-
ered possible to get along with-
out them this year.Councillor Young: That Mr. W.
B. Aiken be authorized to close
up the road allowance he had given
for the use of the municipality
on condition that it should be
opened without expense to the
municipality if required.Moved by Hugill: That the
road committee look over the
Lewis road, date to be fixed later.
Carried.The following pay sheets were
passed for payment on motion of
Councillor Hugill:Caswell \$2,286.48
Ayer 63.50
Hugill 20.00
Young 32.00Moved by Mr. Young: That we
set a price of \$1.00 per bushel on
the hundred bushels of oats be-
longing to the municipality in the
Benton elevator. Carried.Moved by Mr. Hugill: That
Mr. R. Caswell be the municipal
representative on the board of
the Highland Park Co-operative
Credit Society. Carried.Moved by Caswell: That Mr.
Ayer be the other representative
on the board. Carried.The council went into session
as an appeal court against valua-
tions. The valuation of H. B.
Johnston on the south-west of
24-27-3 was reduced to \$2,107.00.The appeal of Mr. Hall against
the assessment of \$12,000 on the
north-west of 2-27-1 was dis-
missed.No other appellants appearing
the business of the council was
resumed.The following bills were passed
for payment on motion of Coun-
cillor Denton:Alaskan News \$ 13.00
H. M. Ball 263.67
W. S. Smith 2.00
Beaver Lumber Co. 181.25
Secretary-treasurer 80.00
Allan Denton 49.50
E. Ronse
J. A. McIntyre 40.40
Sam Plasse 10.85
Postage 25.00
Gopher tails 69.10
Rubber Stamp 1.15
Repairs for grader 2.50The following payments of
feed were authorized:Vic Begg (Max Creutz) \$87.80
Vic Begg (Hyman Sterling) 90.00
Benton Elevator (Hutch-
inson) 90.00Moved by Councillor Denton:
That Bob Doran be Weed In-
spector for Range 3. Carried.The road committee's reports
were read and adopted.Meeting adjourned till August
2nd, at 10 a.m.**EXCEL ITEMS**At the meeting of the Excel
U.F.W.A. last week the Junior
branch of this organization
was formed and the following
officers were elected: Pres.,
Miss Belle Howard, Vice Pres.,
Miss Gladys White, Sec. Treas.,
Miss Ellen Hess, Directors,
Miss Myrtle McDonald and
Florence Howard. The next
meeting will be held on Friday
at the home of Miss Ellen Hess.
All girls under the age of
twenty years are invited to
become members.Mr. Ed. Gainer, with friends
from Saskatchewan, motored
here for a short visit with his
brother Jim Gainer last week.We are glad to note that
much needed road work on the
Excel-Oyen road has com-
menced. Motorists will find it
to their convenience to keep
the road allowance more after
crossing the track going from
Oyen to Excel instead of tak-
ing the "cut off" which is quite
rough owing to being plowed
up.**LOCAL ITEMS.**Mr. C. McMillan of Winnipeg
formerly on the staff of the
Bank of Toronto at Oyen is
now in charge of the local
branch at Sibbald. Mr. Mc-
Millan is a returned veteran
having served nearly four
years on active service.Anyone finding auto license
plate number 1598 please re-
turn to The Oyen News Office.Money to Loan on Farm
Land. Apply to F. C. McClean
agent for Holland-Canada Mort-
gage Company Ltd.E. Lindquist and Jim Lees,
who have been on a trip to the
Peace River district, returned
on Sunday.Entries for the Oyen Agricul-
tural Fair absolutely close at
10 a.m., Saturday, August 2, 1915.The Fairacres Womens In-
stitute will hold a regular
meeting on Wednesday, Aug-
13th at the home of Mrs. H.
Cunningham.Louis Gillespie, son of Mr.
and Mrs. R. E. Gillespie, who
underwent an operation in Cal-
gary for appendicitis is now
making good progress towards
recovery.Arthur Fry was a visitor in
Calgary over the weekend.
Mrs. Fry and family who have
been spending a holiday in
Calgary, accompanied Mr. Fry
home.**Shipping Next Tuesday****Sell Your Cattle**
